Our Products Designed to Meet Unmet Clinical Needs

Our Vascular Intervention division consists of a diverse portfolio of cleverly iterated products, with novel design and engineering principles. Our product portfolio includes drug eluting stents, bioresorbable scaffolds, balloon catheters, transcatheter aortic valve replacement systems (TAVR) and transcatheter edge-to-edge repair (TEER) system along with a robust pipeline of products in continuous development.

Our heart valve product range include both Mechanical Heart Valves and Bioprosthetic Heart Valves (pericardial) that are used in procedures namely, aortic valve replacement, mitral valve replacement and double valve replacement, wherein the surgeon replaces the native malfunctioning heart valve with an artificial heart valve to restore proper heart function, alleviate symptoms, and improve the patient's overall quality of life.

Our Orthopedics division at Meril is to restore mobility through our innovations. Our diverse orthopedics portfolio of products is backed by pathbreaking manufacturing technology, and the counsel of world-renowned surgeons, establishing us as a frontrunner in Orthopedic Implants. Our wide-ranging offerings include total hip and knee replacement systems, revision surgery devices, trauma and spine devices.

The aim of our Surgical Robotics division at Meril is to transform precision in surgery through cutting-edge technology. Our offerings, including India's first MISSO robotic system, provide unparalleled accuracy, control, and consistency, redefining surgical excellence and enhancing patient outcomes.

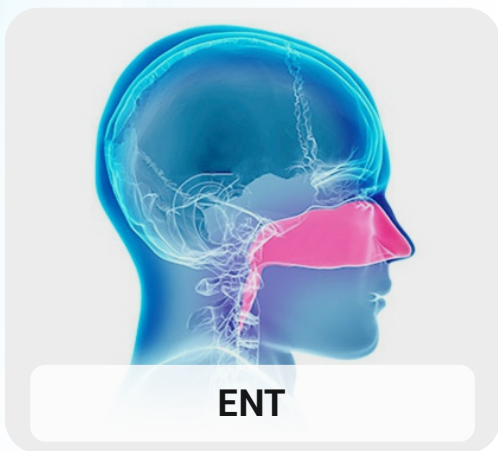

Endo Surgery

Our Endo-surgery division is dedicated to creating and developing innovative products through cutting-edge technology and a collaborative process involving medical professionals from around the world. Our extensive product portfolio includes absorbable and non-absorbable surgical sutures, tissue sealants, absorbable hemostats, hernia repair meshes, intrauterine devices, and mechanical closure devices, including staplers.

Our Diagnostics division at Meril leverages cutting-edge advancements and technology to deliver clinically researched medical devices, meeting the evolving landscape of diagnostics development with precision and accuracy at every step. Our medical devices portfolio covers the full spectrum of central labs, hospitals, and home testing devices, including over-the-counter products.

Diagnostics

ENT

In the ENT division, Our current focus on throat and rhinology related medical devices, and minimally invasive technologies. Our product portfolio includes treatments for chronic sinusitis, airway management solutions, balloon treatments of tracheal stenosis, and management technology for tonsils and adenoids. The ENT division at Meril is dynamic and ever-evolving, with a robust pipeline of products in ongoing advancement.

Meril Academy

Empower the future of healthcare

Through Meril Academy, an education and training initiative, Meril also upskills healthcare professionals globally. With 12 locations internationally, Meril Academy emphasizes knowledge-sharing and continuous education, furthering the company's commitment to advancing healthcare globally.

Our Campaigns

#TreatmentZarooriHai

Patient awareness Campaign

A public awareness by Meril, #TreatmentZarooriHai aims to spread awareness and share helpful, reliable information and knowledge about specific disease conditions of heart (Aortic Stenosis, Mitral Valve Regurgitation and Coronary Artery Disease), large joint (Hip & Knee) disease, hernia and obesity.

The second phase of the campaign focuses on the range of conditions and treatment, including TAVR/TAVI, TEER procedure, joint replacements, bariatric surgeries and many more. It emphasizes that untreated health issues can affect not only the patient but their entire family. The personalized videos including MS Dhoni, aim to motivate patients to overcome their apprehensions and trust the efficacy and safety of advanced medical procedures.

#DoctorWinsHumanityWins

In every challenge and triumph, Meril stands in unwavering solidarity with the medical community. Our tribute to doctors extends beyond a single day, embracing their relentless spirit and dedication everyday. At Meril, we pledge to continuously support and partner with these healthcare heroes. Join us in this enduring journey, where together, we make each step count towards a healthier, more resilient world. Because when a **Doctor Wins, Humanity Wins.**
